The roof on the house has been repaired. The new fascia still needs to be purchased and installed. Lots of tree limbs have been cleaned up. Water on, leaks fixed, Mowing started.

Have contacted the lagoon people. Dnr has said that we do not need to do anything special this year. We do need an engineering firm to provide an engineering report stating lagoon is ok.

Water samples taken, and came back fine.

Cabin #2 needs more repairs than before...would take about \$3000. Kent thinks we should take it down, but some concerns were brought up that we have most of the materials, and we should complete the repairs. Others thought it was not worth doing. Deb moved that we repair the roof on cabin #2. 2nd by Cathy Reeves. Vote passed to repair the roof. Gaelane will work with the Mission Center to get final approval.

Finish Shelter #5 this year if we can get work days organized.

4 shower doors are installed on the boys side. We have oil to stain and then Kent will add the door knobs. \$2000 appx. Spent to complete.

Door in the hall materials will be about \$700.

Skid loader still functional.

Work day on Saturday, May 23rd. (Door repairs) Save the 3rd Saturday in the month for workdays.

Need a director for Family Camp due to Gaelane's health issues. July 18th to the 21st.

Respectfully submitted,

Deb Wykert
